God s Harvard Hanna Rosin

God's Harvard: A Christian College on a Mission to Save America, is a rare accomplishment for many reasons - perhaps most of all because Rosin is a journalist who not only reports but also observes deeply. Her insights come through in her balanced portrayal of each student, the nuance with which she inserts her own first-person narration, and - not least - her dry and sometimes acerbic God's Harvard: A Christian College on a Mission to Save ...

God's Harvard (2007) is a fast read, informative, and well-written. Rosin tackles the difficult topics of home-schooling, creationism vs. evolution, and the search for perfectionism in a most imperfect world through a new (2000) small Patrick Henry College, near Washington, D.C. The students are gearing toward careers in politics to promote their conservative Christian elite views.

In God's Harvard, Rosin takes readers into the school with her and really puts a face on the modern Evangelical movement.
