[Linux System Administration: Bill Lubanovic, Tom](#)
[Adelstein ...](#)

Linux is now a standard corporate platform with users
numbering in the hundreds of millions, and there is a
definite shortage of talented administrators. Linux System
Administration is ideal as an introduction to Linux for
Unix veterans, MCSEs, and mainframe administrators, and
as an advanced (and refresher) guide for existing Linux
administrators who will want to jump into the middle of
the book.
