Sustainable Education: Re-visioning Learning and Change ...

In this briefing, Stephen Sterling points out that: progress towards a more sustainable future depends on learning, yet most education and learning takes no account of sustainability; progress toward orienting education towards sustainable development since the Agenda 21 agreement has been very slow; and education is largely behind, rather than ahead of, other fields in developing new thinking.

Education for sustainable development - Wikipedia

Education for Sustainable Development (ESD) was a United Nations program that defined as education that encourages changes in knowledge, skills, values and attitudes to enable a more sustainable and just society for all.
